

TOWN TO ORDAIN EXTENSIONS AND LAY NEW STREET

Borough councilmen at their August meeting Monday evening in the engine house directed their solicitor, Attorney Eugene V. Bullett, to prepare ordinances which will ordain extensions of several streets in the Colt Park section and lay out a new street there.

Later in the meeting council also ordered a survey of newly built sections of the town to determine what additional street lighting is needed.

S. Blaine Miller, representing the Colt Park Development Company, opened before council in connection with a request for ordaining of extensions to Culp St. and Fairview Ave to their intersection, Queen St. to Long Lane and a yet unnamed street in the same section.

Borough Engineer LeRoy H. Winebrenner, asked and received permission to proceed with building sections of some of these streets during the summer. The work will have to wait until the land for the streets has been deeded to the borough.

Expect Transfer Soon

Transfer of the land for the new streets is expected to take place soon. The land is being offered by the Colt Park Development company.

The street lighting needs were brought to council's attention by Councilman Donald Robert who said a light is needed at Johns Ave. and King St. and at various points in other sections where new homes have recently been erected. He urged attention to the matter "soon."

Soon after the operation, Mrs. Eisenhower was able to talk with the President by telephone. Hagerty said he would visit her this afternoon.

Hagerty said he was not able to describe the actual nature of the operation beyond saying it was for a "benign" condition, that it was not a tumor.

John Yovicin Missing Since 1 P.M. Sunday

Police of two states, Pennsylvania and Massachusetts, are looking for John M. Yovicin, former football coach at Gettysburg College, who has been missing since one o'clock Sunday afternoon.

Yovicin left his home on the Old Mill Rd., at the Gettysburg Country Club, at 1 o'clock Sunday afternoon to drive to Cambridge, Mass., to resume his duties as football coach at Harvard. At noon today nothing has been heard of or from him.

Yovicin was expected to arrive on the Harvard campus sometime

JOHN YOVICIN

Sunday evening. When Mrs. Yovicin did not hear from her husband on Monday she telephoned Harvard University authorities and was told that her husband had not reached the campus. She then reported to Massachusetts and Pennsylvania State Police and teletype messages were flashed throughout both states.

The football mentor was driving a 1957 Oldsmobile, two-door, hardtop sedan. It is white with a red stripe. At 10 o'clock this morning Mrs. Yovicin told The Gettysburg Times that she had not heard from her husband up to that hour.

AP Carries Dispatch

The Associated Press carried the following dispatch on its teletype this morning: Pennsylvania state police sent out a search alert today for John Yovicin, Harvard football coach, missing from his home here since 1 p.m. last Sunday.

"He left here Sunday en route to Harvard and we haven't seen him since," said C.R. Willis, the coach's father-in-law.

State police at the Gettysburg substation sent out a message to all state points reporting Yovicin as missing.

He was reported as a "simply try and locate situation" yesterday by Massachusetts state police.

"Normally he would take the (Pennsylvania) turnpike as far as he could but we are not sure he did that this time," Willis said.

"He planned driving right to the college after he left his home here," Willis added.

Yovicin several months ago was named head football coach at Harvard after holding a similar job at Gettysburg College.

Pennsylvania state police said the athlete was "definitely listed as missing on our report."

He is married and the father of four children.

A Harvard spokesman said he was "still phoning around, but we haven't located him yet. He Yovicin has several friends in Massachusetts he might have stopped to visit."

Asked if the university considered Yovicin's failure to appear alarming, the spokesman replied "No."

Actions Against Sauters Dropped

The assumption actions entered in Adams County court earlier this summer against John R. and Deborah A. Sauter, Philadelphia, formerly of Franklin Twp., have been discontinued, according to records at the office of Prothonotary Herbert W. Miller.

The actions were brought by H. B. Brown and Michael J. and Cecilia C. Bollinger, all of Baltimore. Brown claimed the Sauters owe him \$3,000 and the Bollingers claim a debt of \$3,500.

Preliminary objections to the suits have been filed here July 9 by Attorney S. M. Raffensberger citing Pennsylvania Rules of Civil Procedure and claiming that assumption actions can be brought only in a county where the defendant can be served, Philadelphia County in this case.

Chain-Letter Bond Buying Is Revived

The U.S. Treasury Department today alerted county banks that the illegal practice of "chain letter bond buying" has been revived and cautioned bank employees to warn their patrons against the unlawful "get-rich-quick" schemes.

The latest chain letter bond-buying is in the \$50 denomination. Earlier the \$25 bonds had been purchased. Letters advise those joining the chain to purchase a \$50 savings bond for the person whose name heads the list and to add their own name to the end of the list.

One county bank reports that a patron sought a bond for purpose of joining the bond chain on Monday. When the cashier pointed out the action was illegal the patron was incensed.

Swedish Girl Sports 21,719 Hated Freckles; May Bring Fame

By GUSTAV SVENSSON
STOCKHOLM, Sweden (P)—This is the story of Freckles with the tiffin hair, who used to be told that she got her tan through a tea strainer.

"Some of them are too big to have gone through a sieve though," said a Swedish dermatologist who took the pains of counting a total of 21,719 freckles, excepting Bikini areas.

"Statistics," he said, "are scant but it looks like a world record. Anyway I doubt if so many freckles were ever combined with such beauty."

Gets Screen Test

Harries (Freckles) Asp is a slender, long-legged art student who hates freckles. Chances are she will make color-movie viewers love them.

The photographer who first spotted Freckles made 150 pictures of her in two days. It took Sweden's biggest movie makers, the SF Corp., no more than five minutes to give her a screen test. Color magazines in Sweden and abroad are getting Freckles-minded at an astounding rate.

Most of her 23 years, she lived under the impact of her brilliant colors.

COUNCIL VOTES FOR LAND-FILL GARBAGE AREA

Gettysburg Town Council at its August meeting Monday evening adopted an ordinance providing for licensing of an operator of a land-fill dump where garbage collectors who operate here will be required to dispose of their garbage at \$3 per ton.

Looking toward an early closing of the present borough dump along the Littlestown Rd., the ordinance does not name the operator or the site where the new dump will be located but Councilman Harold Ecker, who presented the ordinance for council action, indicated the dump will be located in Cumberland Twp.

Mr. Ecker held what he said was a copy of an agreement between the road supervisors of Cumberland Twp. and Battlefield Earthmoving, Inc., Gettysburg R. 3, in which the latter concern was given permission to operate a land-fill dump. The agreement was not read to council.

Available To Others

Inquiry after the meeting revealed that the Battlefield Earthmoving concern has taken an option on an 87-acre tract along the Taneytown Rd., about 3 1/2 miles south of here where it expects to operate the new land-fill dump under a plan already cleared with the township supervisors and health authorities.

The dump operator would be licensed by the borough but other communities could use the dump, according to terms of the ordinance approved Monday.

President H. M. Oyler asked what protection is provided for town residents against possible exorbitant rates which might be charged by garbage collectors because of the charge they will have to pay at the new dump. Discussion brought out the statements that the borough never has fixed garbage collection rates here but that if rates considered to be "too high" are charged "there is nothing to prevent the" (Continued On Page 3)

INCREASE SOME PRIZES AT SOUTH MOUNTAIN FAIR

Mrs. Guy Herring, Arendaville, chairman of the culinary department of the South Mountain Fair, has reported that premium awards have been increased this year in order to attract as many entries as possible in the various categories on display. Increases average ten cents for all single jars of vegetables and fruits and for jelly, preserves, dried fruits, vegetables and cold soap.

Under the new prize list for single jars of vegetables and fruits is 1st, 75 cents; 2nd, 50 cents; 3rd, 35 cents. In the other changed categories values now are 1st, 50 cents; 2nd, 40 cents; 3rd, 30 cents.

Notable Attraction

The culinary department has always been one of the notable attractions at the South Mountain Fair and Mrs. Herring is hopeful that this year's exhibit will be no exception despite the drought. While the hot, dry weather has presented all kinds of obstacles, more people are expected to can fruits and vegetables in order to escape rising prices which are in the offing as a result of short crops.

In addition to canned fruits and vegetables the committee is soliciting entries in the cake, pie and bread classes.

Another feature of the culinary exhibition is the juvenile section with two classes, one for those between 12-14 years of age and a second for those between 14-17 years.

The committee will take entries on Sept. 2 from 7 to 9 p.m. and on Sept. 3 until 6 p.m.

Rules for the culinary exhibition demand that products exhibited must have been prepared since last year's fair, that the fruit and vegetables be exhibited in pint or quart jars with labels on the lower edge of the jars. Judges have the right to open jellies and preserves for tasting.

Gettysburg College Will Construct 3 Dormitories With \$1,300,000 Loan

A \$1,300,000 loan was approved Monday for construction of two new women's dormitories and one new men's dormitory at Gettysburg College by John C. Hazeltine, chairman of the Housing and Home Finance Agency of the Community Facilities Administration, Washington, D. C.

Gen. Willard S. Paul, President of Gettysburg College, announced today that the college will proceed immediately with construction of the two women's dormitories. Gen. Paul reported that advertisements for bids for the women's dormitories are being prepared now and that as soon as bids are approved construction will get under way, probably this summer. The new quarters will house 130 coeds each and will be erected in the quadrangle between Hanson Hall and Huber Hall. The same style of colonial architecture will be utilized as in the other college buildings.

Construction of the men's dormitory will be delayed until later. The new men's dorm will house 144 students.

Gen. Paul said that the increase in boarding facilities would not lead to an increased student body. At present there are approximately 1,450 resident students enrolled for the fall term. The new facilities will enable the college to revise the ratio of men to women so that by 1958 when enrollment is expected to be held at 1,500 students there will be quarters for 500 women and 1,000 men.

The construction project is the largest in the history of Gettysburg College.

The Ricky Weikert Memorial fund went over the \$100 mark in this column today when two donations added another \$20 to the previously subscribed \$85. Mr. and Mrs. Walter Fissel, Gettysburg R. 1, purchased 15 tickets to the Ricky Weikert memorial playoff games and five tickets were purchased by Dan, Jim and Dave Rosensteel and Larry and Richard Eckert.

It was announced today that the memorial fund also received a big boost last week when the entire collection from the Little League playoff game, \$38.85, had been turned into the fund. League officials are hopeful that at least 750 tickets for the Big Little League playoff games will be purchased. The entire proceeds will go into the fund.

GET \$48,000 IN SCHOOL TAX

Forty-eight thousand dollars in new taxes received by the Gettysburg borough school district in the last month kept the month-end balance in the general fund at \$50,427, according to the monthly report of the treasurer submitted to the local school board at its August meeting at the high school building, Monday evening. An August payment to the joint school district was authorized.

With all members of the board in attendance and President Ray J. Kitzmiller presiding, the board went over a list of names on which Tax Collector J. Herbert Weikert asked exonerations because of errors, duplications, deaths, removals and a few cases in which names of persons not yet 21 years of age appeared on the tax lists. The exonerations were granted.

The tax collector's report showed tax liens have been entered against three properties on which 1956 real estate taxes could not be collected. The board discussed plans for clearing and cleaning the area north of the high school building, plumbing problems at the lodge at the high school which is now rented and other routine matters.

The meeting was held in the office of Superintendent H. Edgar Riegle.

SENATE PROBES WANT LOOK AT UNION BALLOTS

WASHINGTON (AP)—The Senate Rackets Committee reportedly has asked all locals of the United Steelworkers to impound ballots used in President David J. McDonald's re-election six months ago.

Letters have been written by committee counsel Robert F. Kennedy to the union's more than 2,500 locals, it was learned, asking that the ballots be preserved beyond the Aug. 12 date fixed in the union's constitution as the time they could be destroyed.

McDonald, who won the election by an announced margin of nearly 2-1, issued a public statement several months ago pledging full cooperation in any investigation the committee might undertake.

Donald Rarick, his opponent, a steelworker from McKeesport, Pa., claimed when the union election results were announced there had been "irregularities."

He contended McDonald had used union funds in campaigning against him, but McDonald denied this.

Rarick and a group of fellow USW members have conferred here with Committee Chairman McClellan (D-Ark) and with Sen. Mundt (R-SD), another committee member. McClellan said the committee eventually will get around to investigating Rarick's complaints.

The union reportedly provided to Kennedy a mailing list of all its locals, but union sources said they will balk at any attempt by the McClellan committee to recount the ballots.

They were understood to contend that there is a prescribed union procedure for challenging any voting irregularities and that no recount would change the result of McDonald's victory.

USE TENT TO STEAL \$30,000

SEASIDE HEIGHTS, N.J. (AP)—Thieves burned open a bank safe and made off with \$30,000 over the weekend, working with a torch under cover of a canvas tent, police said.

The theft was discovered yesterday when the bank, a branch of the First National Bank of Toms River, opened for business.

Police think the theft from the night deposit safe was pulled off early Sunday morning while week-enders leaving taverns and concessions strolled past on the boardwalk nearby.

No Protection
The safe had been burned open from inside the bank, which has neither a burglar alarm nor window bars.

Police Chief Joseph McDevitt said the safecrackers pried open an alley window of the building, then put up a canvas shield to hide the glow of their torch.

Frank W. Sutton Jr., president of the bank, reported \$26,000 in cash and \$4,000 in checks missing. The branch, located in a one-story building, has been in operation for 12 years.

Resurfacing Of Highway Completed

Blacktopping of a mile and one-tenth of Lincoln Highway East beginning at the borough line was completed Monday except for the shoulders, Clyde O. Garber, Adams County superintendent of highways reported this morning. "Fixing the shoulders shouldn't take us very long," Garber said.

The next job for the highway crew will be the resurfacing of 2,012 feet in Bendersville. Curb-to-curb surfacing with ID-2 bituminous material, similar to that used on the Lincoln Highway will be laid. Garber said, "We hope to start the Bendersville job Monday morning."

DES MOINES (AP)—Just in case you might not believe this story — two ministers vouch for it. They were playing golf. One of them chipped to the green. A ground squirrel darted across the green and pounced on the ball. The little animal set up, looked around, and then, with its nose, nudged the ball into the cup.

Will Open In Fall

The new dump is to be in operation by fall, according to present plans. There was some discussion about disposal of the present dump and the suggestion was made that it be sold.

The ordinance setting up the new plan was adopted without a dissenting vote.

Councilman George W. Naugle reported that he had met with a Gettysburg Fire Company committee that opened bids for 2,000 feet of new fire hose and that the lowest of three bidders, the Houch Rubber Supply Company of Hanover, had been given the contract for 1,500 feet of 2½-inch hose and 500 feet of 1½-inch hose at a cost of \$2,800. The total contract was for \$3,441 and the balance will go for nozzles and fittings.

Council had the bill for the new hose among those approved for payment Monday evening.

Re-appoint Hartzell

Councilmen gave the county commissioners permission to remove the old drinking fountain at the front of the court house which was described as an "eyesore." The cost will be borne by the county.

Another five-year term for M. P. Hartzell on the Gettysburg Recreation Board was approved by council. His present term expires September 1.

Early in the meeting when communications to council were being read, Secretary Anna Dracha picked up a letter, announced it was "anonymous," and President H. M. Oiler refused to allow it to be read. He said unsigned letters do not

FIFTY YEARS AGO

Local Miscellany: The picnic held by Battlefield Council O. of I. A. last Wednesday was a grand success financially and otherwise.

College and Preparatory will re-open Thursday, September 12th. From the present indication the attendance will be large.

D. C. Stallsmith and Samuel Hartzel were nearly overcome by gas Friday evening while repairing a pipe under the bridge at Beniah Spangler's Baltimore street.

Preparing For School: The Gettysburg School Board is having repairs made to the buildings preparatory to the opening of school on Monday, Sept. 2nd. Thomas J. Winebrenner is putting new metallic ceilings in Meade High School building. The buildings are being thoroughly renovated.

Stole Anvil: An anvil weighing 125 pounds was recently stolen from the blacksmith shop of H. J. Gulden, near Aspers. About 25 pounds of lead was also stolen from Mr. Gulden's cellar. The latter was taken in daylight while the family was away from home. The stealing of lead is a rather common thing these days but to take an anvil is rather rare.

Surveying For Trolley: Last week the surveying corps of the Chambersburg and Gettysburg Trolley road reached this place. There is little doubt but what this road will be built within a year.

East Berlin's Most Popular Lady: Miss Mary Miller is the most popular lady in East Berlin according to the voting contest held at that place last week by a medicine company. The young lady was presented with a beautiful silver set in recognition of her popularity.

Killed 97 Snakes: Henry Kump, of Cashtown, the great South Mountain snake hunter reported that he has already killed 97 snakes, 92 of which were copper heads, 1 black and 4 rattlesnakes. One had 14 rattles and a button. Henry does not kill such as garter and water snakes.

Fire Alarm: An overheated chimney in the house of Martin Winter's farm, tenanted by Ambrose Small, at the edge of town, caused some excitement about 4:40 o'clock Sunday evening. A fire alarm was turned in and the engine and reels were taken to the scene when word was received that the fire was out. No damage was done.

First Matches Made At Thurmont: It is not generally known that the first lucifer matches manufactured in this country were made at Thurmont, Frederick county, Md. by Jacob Weller, grandfather of Joseph W. Sefton, the well known battlefield guide of this place, in the year 1825. A brother, Joseph Weller, assisted in making the matches.

The matches were first made in blocks and subdivided, first by hand and then by machinery, and then dipped, one by one, into the brimstone mixture. The matches sold for twenty-five cents a box, which included a piece of sand paper on which to ignite them. The factory which the Wellers used was twice destroyed by fire.

General Local Jottings: Work on the new macadamized road in Menallen township is progressing lively. All grading has been completed and the macadamizing is going on rapidly. It is expected to have the new road from Aspers to Bendersville completed before winter sets in.

The new school house being erected at Centre Mills is under roof.

Eli B. Slaybaugh has the frame of his new home at Aspers up and the masons will begin to lay the brick this week. The new barn has been completed.

An impressive scene took place on the banks of the Great Conowingo at the two bridges on Saturday when the Rev. Burkholder of the U. B. church baptized 9 young people.

Today's Talk

SUNSET SERENITY

I will never tire of sunsets, no matter where I may cast my eyes upon them. They inspire and silently bless my immortal soul. "Sunset, and evening, star" were the words of Tennyson as he contemplated his earthly end. I thought of this recently as I looked upon a beautiful sunset, and later upon a brilliant single star in the west.

There is a serenity that fills the mind and soul as the beauty of a sunset creeps into one's consciousness. Each second there is a new masterpiece presented by the greatest painter of all — God in His Heaven — whispering to be of good cheer and to fight on courageously and unafraid. I am lucky to be vacationing where I can view matchless sunsets and note the reflected colors creep across the water of a beautiful lake. How peaceful each is, how full of color! Love is like that! Sunsets fill us with serenity and hope. They melt all worries away and build assurance within us. I love the sunsets in paint, by Blake, Lock and George Inness. There is a spiritual note in them all. But to enjoy the original canvas in the sky is a spiritual experience. We look upon a perfect painting, one with many soothing changes, until finally it slips noiselessly into its slumber of the night.

Nature is a storehouse of natural devices that bring serenity to the mind and heart. Once acquainted with them, each time we can listen to God's explanation of them, and carry them with us through the means of memory. I still carry with me, through my memory, the picture of one of the most beautiful sunsets — one in Oklahoma. Another in San Francisco Bay.

Tomorrow Mr. Adams will talk on the subject: "Attachments." Protected, 1957, by The George Matthew Adams Service.

Just Folks

STORY TELLER

I have stories I can tell
But the most of them are old.
Though they still go pretty well
When by others they are told.
Of comes the thought to me,
Since I know the finish line:
That is one that used to be
A great favorite of mine.I don't ever interrupt
When a story's being told
To exclaim in tones abrupt:
"That is one that's ages old."
I will follow every word
In a friendly, patient way.
"Yes, that's one that I have heard."To the group I'll never say,
Tell it badly, tell it well,
Even spoil it if you can.
I will never break the spell
Of a mirth-provoking man.
Creep or hasten to the end,
As so many fellows do,
I will laugh and I'll pretend
That a worn-out joke is new.

While out driving the other day, John Decker, a local storekeeper of Hunterstown was thrown from his wagon and though the horse was going full speed, he escaped injury. The accident was caused by the coupling pole of the wagon breaking at the fifth wheel. The horse was caught before any further damage was done. Mr. Decker's escape from serious injury was remarkable.

DISAGREE OVER
SPENDING BILL

WASHINGTON (AP)—Secretary of Defense Wilson and President Eisenhower are in disagreement over a proposal for changing the appropriations system. Wilson says it conceivably could endanger national security.

The proposal calls for a new system under which Congress would appropriate each year only funds to be spent during that year. The government would be given the authority to sign contracts covering projects of longer duration, but cash would be provided only on a year-to-year basis.

Present Situation
At present, Congress makes appropriations to cover both immediate spending and needs stretching beyond a year. This leads to carry-over of money from one year to the next.

Wilson's opposition to the plan, recommended by the Hoover Commission and supported by Eisenhower, was disclosed on Sunday when the House Appropriations Committee made public the secretary's testimony on the subject. Saying "I do not believe in partial financing," Wilson said that under such an arrangement "you start more things than you can finish with the funds made available and you have a lot of trouble if you engage in such a procedure."

State Health Group
Checks Boy Scouts

HARRISBURG, Pa. (AP)—The State Health Department reported Monday a sectional check is being made to determine if any Pennsylvania boy scouts may have contracted Asiatic Influenza at last month's jamboree at Valley Forge.

Dr. William Schrack, head of the division of communicable disease control, said the check has been underway for about 10 days.

"We are checking the youths who live in Wilkes-Barre, Williamsport, Pittsburgh and Harrisburg areas," he said. "The check is designed to find out whether any of the scouts in those areas had any colds, or other respiratory illnesses during or since they attended the jamboree."

Officials at the jamboree reported some respiratory infection developed among boys from California. However, they said, all responded to treatment and that extensive checking failed to reveal any cases of Asiatic Influenza.

Bury Navy Man
In Elizabethtown

LANCASTER, Pa. (AP)—Solemn requiem mass will be sung Wednesday at St. Peter's Catholic Church in nearby Elizabethtown for a Navy man who died with 10 others in an Italian plane crash.

The body of Airman Leo Richard Killen, 29, of Manheim, and those of the 10 other victims of the July 19 crash were returned to the U. S. Sunday. They were flown to the Air Force base at Dover, Del., and then sent to their homes under Naval escort.

Their plane, a Navy patrol bomber, struck a peak in the Italian Alps while the men were on a training flight during a two-week cruise from the Willow Grove Naval Air Station.

Services for one of the two regular Navy personnel on the flight—Harry Duffield, 35, of Willow Grove—will be held tomorrow at the naval air station chapel. Burial will be in the National Cemetery, Beverly, N.J.

UNION BREAK

ATLANTIC CITY, N.J. (AP)—James R. Hoffa says he has no intention of leading the three million building trades unionists out of the AFL-CIO.

The labor leader, who hopes to succeed Dave Beck as president of the Teamsters Union, was here on Sunday on the eve of a special one-day meeting of the AFL-CIO Building and Construction Trades Department.

Asked about the possibility of such a walkout, Hoffa said he has "no such thing in mind." He then referred newsmen to the president of the jurisdictional committee. The Midwest Teamsters chief said "all issues will be resolved" at today's meeting, the first convening of the AFL-CIO Building and Construction Trades Department.

The Teamsters are a part of the Building and Construction Trades Department. On Friday, Teamsters headquarters in Washington issued a vaguely worded statement which was interpreted in some quarters as signaling a renewal of warfare between the building trades and the predominantly industrial unions that were formerly in the CIO.

Monday's convention heard a report on jurisdictional problems from a committee set up by AFL-CIO President George Meany. Peter T. Schoemans, head of the committee, has said the group will make no recommendations, adding that "any action is up to the convention."

Included in the loss will be an undetermined amount of cash in the night depository of the Essex branch of the Fidelity - Baltimore National Bank.

Deputy Fire Chief F. Lee Cockey estimated the total loss would run to more than a million dollars. He said the blaze started in a furniture warehouse, located in the center of the basement of the block-long shopping center.

HAVANA REBELS
LAUNCH WAR OF
NERVES MONDAY

HAVANA (AP)—Partisans of rebel leader Fidel Castro launched a war of nerves Monday against the government of President Batista. They broke into hundreds of private telephone conversations in Havana shouting, "We have taken the presidential palace, long live Fidel Castro."

The interruptions started a flood of rumors that Batista's government had collapsed.

Distribute Leaflets
Simultaneously, rebels distributed thousands of leaflets in Havana and nearby towns and cities calling upon Cubans to stay away from work Monday.

Early reports indicated, however, most workers were flocking back to work throughout Cuba. They faced loss of their jobs if they didn't.

Artists and technicians at one of Havana's privately owned television stations went on strike and police took over the establishment. These stations and all newspapers have been strongly censored since Batista suspended constitutional guarantees for 45 days.

The government and army claimed "absolute calm and normalcy" prevailed throughout the nation.

In Havana and the provinces, there was mounting tension, uncertainty and confusion as rebels spread rumors Batista had been ousted.

The present day General Robert E. Lee is stationed at Langley Air Force Base, Va. He is president of the Society of Air Force Clinical Surgeons.

HARD TO FIGURE OUTCOME OF N. L. RACE BY QUINTET

By ED WILKS
The Associated Press

With less than eight weeks remaining, that bustling National League pennant race may have a strange windup. The honored home advantage may prove to be like Jonah and the whale—it ain't necessarily so.

St. Louis, in first place by half a game, has more games remaining on the road (29) than at home (22). But the Cards are tops in the league with a 30-18 road mark for a .625 percentage.

Second-place Milwaukee has 25 left at home, 25 left on the road—but it shouldn't matter either way. The Braves are exactly the same at home (31-21) as away.

Redlegs Get Even Break

Brooklyn's third-place Dodgers are best at home with a 31-20 record and play 26 of their remaining 50 at Ebbets Field. But that home bulge is padded with a 16-4 record against the tailenders and the remaining 26 games in Ebbets are split evenly among contenders and the three-team second division.

Cincinnati splits its remaining 50 at home and away, with a 30-22 record at Crosley Field and a 28-24 mark abroad. Philadelphia has 26 remaining at home, 23 away, but the Phillies have been only slightly better in Connie Mack Stadium (28-23) than on the road (29-25).

The Dodgers added to their "get fat" trick against the Little Three with a 5-2 victory over the New York Giants last night in the only NL game scheduled. Cleveland ended the New York Yankees' winning streak at eight games with a 7-2 decision in the only American League contest.

25th For Mays

The Brooks, now 2½ games out of first, broke a 2-2 tie with a fifth-inning run that scored with a hit, then added two more in the seventh to overcome Willie Mays' one-man show for the Giants. The Dodgers couldn't stop Mays, who had four hits including his 5th homer good for two runs, until they had to.

Mays came up with two out and two on in the ninth. Clem Labine relieved Don Drysdale and nailed Willie on an infield grounder.

Ray Crone lost it, with the Brooks taking the lead as Junior Gilliam walked stole second and moved around on a long fly and Elmer Valo's infield chopper.

Mike Garcia, who hadn't beaten the Yankees since Aug. 3, 1955, got the job done for the Indians with a nine-hitter. He walked six, but left 11 runners on base and was backed up by Gene Woodling's homer and a base-loaded single that drove in five runs. Don Larsen lost it to remain winless against Cleveland in his career.

PODRES, TURLEY LEAD IN EARNED RUN AVERAGES

By BEN OLAN

NEW YORK (AP)—Southpaw Johnny Podres of the Brooklyn Dodgers, the majors' shutout king, and righthander Bob Turley of the New York Yankees show the best earned run averages among big league pitchers at the season's two-thirds mark.

Figures compiled by The Associated Press statistical bureau reveal Podres leads the National League with an earned run average of 2.57. He has given up 36 earned runs in 126 innings while winning nine games and losing four. Podres has pitched five shutouts—two against Pittsburgh and one each against Philadelphia, St. Louis and the New York Giants.

Turley, who has a 7-3 record, has the leading American League ERA of 2.25. Bob has yielded 25 unearned runs in 100 frames. Last season he finished with a 5.05 ERA.

Pitched Shutouts

Turley has shutout Kansas City twice and Boston once. An erratic hurler prior to this year, Bob has walked 51 batters and struck out 82.

The Yankees dominate the American League competition. Behind Turley come Bobby Shantz and Art Ditmar, both acquired from Kansas City last winter and both showing ERA of 2.45. Shantz, with a 9-3 record, has worked 125 frames and Ditmar, who is 8-1, 103 innings.

Sam Jones of the St. Louis Cardinals is runner-up to Podres in the National League. Jones has permitted 37 earned runs in 120 innings for a 2.78 ERA.

Courtesy Is Contagious; Get The Habit

The "other fellow's" really a nice guy, so, when driving, why not show him the same courtesy you'd display when meeting him on the street or in a friend's home, asks the Governor's Traffic Safety Council. The break you give the other fellow in traffic will make you feel good and he'll appreciate it with a cheery wave and friendly smile. Practice good manners when you drive. Courtesy is contagious; get the habit.

What's the good word? When it comes to driving, the answer is courtesy. As in all forms of modern life, courtesy pays, and it doesn't cost you one cent to practice. Be a decent citizen, a respected motorist by practicing courtesy. Lack of courtesy, on the other hand, can be costly by the accidents that result and make you look like an ogre to other drivers and pedestrians. Courtesy is contagious; get the habit.

Ever notice the driver who never gets a ticket for a traffic violation, has never been in an accident, and keeps out of trouble on the highways? He's the driver who practices courtesy behind-the-wheel as a way of life. This seemingly rare specimen is really around, as you may have observed occasionally while driving. You can stay out of trouble, too, and avoid accidents. Practice courtesy—it's a contagious disease, so get the habit!

HOW TO DEAL WITH YOUR TENSIONS

There is now available a booklet entitled, "HOW TO DEAL WITH YOUR TENSIONS," which should be of great value in helping people with their emotional problems. pen; They're made by the thoughtless, careless and discourteous driver. Be a thoughtful, careful and courteous driver and you will be a safe driver; you'll learn accidents don't just happen. The biggest majority of traffic mishaps are brought on by the individual driver. Sometimes it's not easy to get into an accident, but the driver who's thoughtless, careless and discourteous enough can usually manage it. Avoid accidents. Get the courtesy habit; it's contagious!

Your car is no battering ram—don't try to use it like a weapon. If caught in heavy traffic, take your time and your turn. Don't try to "snake" your way through the traffic lanes. A crumpled fender, dented radiator, or a crushed trunk can be the minor results of such unsportsmanlike tactics. And, at today's high cost of living, these can be expensive. Courtesy is the byword

Malaya Enters British Family August 31

KUALA LUMPUR, Malaya (P)—Britain and Malaya on Monday scrapped their 1948 agreement binding the Southeast Asian peninsula to the crown. They signed a new pact recognizing the new nation of Malaya as an independent member of the commonwealth, effective Aug. 31.

In a colorful ceremony at King's House, British High Commissioner Sir Donald MacGillivray and 14 Malay sultans and tribal chiefs signed the new 1957 federation agreement.

FORFEIT FINES

Among those recently forfeiting fines in Westminster on charges of motor code violations were the following: Porter W. Seiwel, Littlestown, \$6.45, exceeding 30 miles; Clarence O. of the wise motorist.

Ever try to get into a line of solid traffic from a side street or road? You know how exasperating it can get waiting for an opening in traffic that seemingly never comes. Then, some kindly motorist will stop and give you a chance to get into the lane of traffic. It's a good feeling, isn't it? And the motorist who left you in is a nice, courteous fellow, isn't he? Well, next time you see some other motorist in a similar predicament why not practice a little courtesy yourself and give him a break? You'll feel better and discover—courtesy is contagious, so get the habit!

SAYS SHORTAGE OF MECHANICS CRIPPLES U. S.

PHILADELPHIA (P)—A Chicago garage operator today asked school officials to help end a shortage of auto mechanics which he said is "slowly crippling our economy."

Mel Turner, speaking at a trade and industrial education meeting held in connection with the 51st annual convention of the American Vocational Assn., said school officials could help attract students to automotive courses by pointing to the opportunities in the automotive service industry.

"The shortage of skilled mechanics is becoming acute," Turner said. "The motorist is becoming increasingly aware of the fact he is finding it harder to get service needed for repairs on the new cars with their high-compression engines, power steering, power brakes, air conditioning and com-

Sore About His Lost Job; Burns Building

LODI, N.J. (P)—A young car washer who said he "just got mad" when he learned he'd lost his job, has confessed to slashing gasoline around Frank's Market a week ago and lighting it, burning the rambling structure to the ground, police said. Damage was estimated at a million dollars.

After his arraignment on a charge of arson yesterday, the youth, John Spinelli, 20 of Lodi, was placed in Bergen County Jail in Hackensack. Magistrate Frank Carbonetti ordered him held without bail to await action of the grand jury.

Police said they were going to question Spinelli about several other fires in the area including one that did \$50,000 damage to the Farmers Market on Rt. 46 two weeks ago.

Woodbury, Of Soap Fame, Dies at 91

MONTCLAIR, N.J. (P)—William A. Woodbury, founder of a multi-million-dollar cosmetics business, died at Mountsinai Hospital yesterday at the age of 91.

Woodbury, who retired 31 years ago, had only a year of formal schooling. The soap and beauty aids developed and promoted by his company, Woodbury, Ltd., made his name a household word the world over.

Starting in the days when respectable women made no use of "store-bought" makeup and improvised home products, Woodbury founded nearly 2,000 beauty shops.

He spent the final years of his life in a modest home in Upper Montclair with his wife, Mrs. Woodbury, who is the only survivor.

Yesterday the U.S. commissioner of education urged the training of high school students both as specialists and well-rounded individuals.

"Students must learn much more about many things than was necessary 25 or even 15 years ago," Commissioner Lawrence G. Derthick told the convention.

FHA INTEREST RATES UP; MAY BE RESTUDIED

By B. L. LIVINGSTONE
WASHINGTON (P)—A rise in FHA interest rates, the second in eight months, brought talk today of congressional action to limit any further increases.

The Federal Housing Administration made effective today an increase from 5 to 5 1/4 per cent in the maximum interest rate on home mortgages it insures. The rate was boosted last December from 4 1/2 to 5 per cent.

Along with the higher rate, FHA also announced yesterday lower down payments on homes financed with government-backed mortgages. The biggest reduction applies to houses in the \$10,000-\$25,000 class.

Lower Payments

Lowering of FHA down payments was greeted generally with approval in Congress. But the interest boost immediately drew the fire of Democrats who have been critical of administration monetary policies.

Rep. Rains (D-Ala.), chairman of the Housing subcommittee of the House, said "Congress must restudy the whole FHA program." He raised the possibility he would seek to fix a lower FHA rate ceiling.

"It may well be," he declared, "that we will have to enact legislation placing some sort of reasonable limit on FHA interest rates to stop the present administration's mania for continually raising interest rates."

Had Authority

Rains said, "Apparently this administration cannot take any action in the financial field which does not benefit the big banking interests in some way."

Congress in past housing legislation gave the federal housing administrator authority to raise the interest rate to as much as 6 per cent. New legislation would be required to lower or raise this ceiling.

On the other hand, Republicans agreed with FHA that a higher rate was necessary to keep FHA mortgage loans competitive with other financing demands in the current tight money market.

Rep. Halleck of Indiana, assistant GOP leader of the House declared, "If you're going to be able to borrow money, the rate's got to be realistic."

NEW YORK (P)—The U. S. National Open has gone on the record books but the USGA, sponsor of amateur golf in America, still faces a busy schedule.

The ninth girls' Junior Championship is set for August 12-16 at the Lakewood Country in Denver. Then comes the 57th Women's Amateur Championship August 19-24 at the Del Paso Country Club, Sacramento, Cal. The 57th National Amateur is set for Sept. 9-14 at The Country Club in Brookline, Mass. and the third Senior Amateur Championship is listed for Sept. 30-Oct. 5 at the Ridgewood Country Club in Ridgewood, N. HUNDREDS HONOR SENATOR GEORGE

VIENNA, Ga. (P)—Former Sen. Walter F. George was buried in a sun-dappled cemetery yesterday while the great and the humble bowed in tribute to a man who did much for peace in a troubled world.

A delegation of congressmen, an ambassador and a governor joined with hundreds of Georgia friends at the brief interment service.

The tenant farmer's son who spent 34 years in the Senate and became special ambassador to NATO was eulogized as "a great and good man . . . who loved truth."

Those were the words of the Rev. L. C. Cutts during the simple funeral services in the red brick First Baptist Church.

He said George had "tremendous courage that led him to be afraid of nothing except to be wrong."

Henry Cabot Lodge Jr., U.S. ambassador to the United Nations, was present as President Eisenhower's personal representative.

George died in his sleep Sunday at the white frame house in this south central Georgia town of 2,000 where he had been battling a heart ailment for many weeks.

Gemberling said any sales being conducted at picnics will be halted. He did not say what

4 PERSONS SAIL ATLANTIC OCEAN IN 43-FOOT YAWL

CHICAGO — A 43-foot yawl dropped anchor in Chicago on Sunday looking for all the world like any of the dozens of boats ending a weekend pleasure cruise on Lake Michigan.

Aboard the Fare Well were four suburbanites who previously had never sailed anything larger than a dinghy on a Midwest lake. They had just completed an 8,000-mile, 124-day trip across the Atlantic from Bremen, Germany.

Dr. Alfred Wolfarth, 58, of Mount Prospect, explained the voyage was "to give us a chance to see Europe."

With Wolfarth were his wife Caroline, 58, their son Robert, 32, and a family friend, Robert John, 46, of Elmhurst.

They left Chicago in March for Bremen, where they bought the boat, outfitted it and took on provisions.

Sailed April 12

They sailed April 12 and after passing through the English Channel, cruised the Mediterranean, then to the Canary Islands and Bermuda. They reached Chicago by way of Erie, Oswego and Welland canals and the Great Lakes.

Ports of call included Holland, England, France, Spain, Portugal, Gibraltar, French Morocco, the Canary Islands, Bermuda and New York.

They were becalmed 24 hours and later hit 60 m.p.h. winds at the end of Hurricane Audrey.

"The only time I was frightened," Dr. Wolfarth said, "was near the beginning when he sailed across the English Channel. Our boat, with a 55-foot mast, rode out 40-foot waves. We had a German sailor aboard going to England and he didn't appear frightened. I figured I shouldn't be either."

8,000 IN TRAINING

INDIANTOWN GAP — More than 8,000 troops of Pennsylvania's 28th National Guard Division Monday began their first day of full-scale summer field training at this 17,000-acre military reservation.

Firing of weapons of all kinds was the order of the day for the troops.

PLAN CAMPAIGNS TO BOOST VOTE

HARRISBURG — Leaders of both major political parties Monday mapped campaigns to bring out the vote in the Nov. 5 general election.

Democratic leaders went to Pittsburgh Monday for the first in a series of workshop conferences aimed at increasing party registrations for the election.

Republicans set up a program for a similar series of meetings next month.

The Republican regional meetings will begin Sept. 9 at Warren and wind up Sept. 19 at Coatesville.

In addition to Monday's meetings the Democrats also scheduled an evening meeting in Sharon, followed by a Tuesday meeting in Williamsport on Aug. 13 session at Wilkes-Barre and Aug. 15 meetings at Harrisburg and Reading.

BRITISH PRESS SCORE LORD WHO SCOLDED QUEEN

LONDON — Some British newspapers suggested Monday morning that Lord Altrincham was right in complaining that Buckingham Palace is not in tune with the times.

But most papers agreed that the 33-year-old peer was insulting in his personal criticism of Queen Elizabeth II and her platform personality.

Altrincham, who edits the scholarly weekly the English and National Review, wrote the Queen needed some new advisers to replace "a second-rate lot." He said her speaking style "is frankly a pain in the neck" and her speeches make her sound like a "prigish schoolgirl."

Issue Strong Denunciations

If dueling were still legal in Britain, Altrincham undoubtedly would have been pacing the grass at dawn Monday. Noblemen who rank as court advisers responded to the article with strong denunciations of the young Etionian.

In the best royal tradition, the Queen herself gave no hint that she was aware of the storm breaking around the palace.

RED SKELTON ABRUPTLY ENDS EUROPEAN TOUR

NEW YORK — Comedian Red Skelton returned Monday from a three-week tour of Europe with his leukemia-afflicted son and a soberly told newsmen.

"Don't ever take a sick boy on a world pilgrimage."

Although Skelton and his son, Richard, 9, struck happy poses for photographers at Idlewild Airport, the father did not smile as he answered questions about certain aspects of the trip abroad.

"Everywhere we went, morning to night, there were 50 to 300 people around telling us what to do," Skelton said.

Acting on a sudden decision in Edinburgh, Scotland, on Sunday, Skelton, Richard and the boy's mother and sister, Valentine, 10, flew to London and took a plane for New York.

The blood disease Richard is suffering from has been termed incurable. Skelton took the youngster to Europe to give him a chance to "see some of the wonderful places he had read about."

In Rome the Pope received Richard and his family. The boy saw a bullfight in Barcelona and visited Sweden, Switzerland, and France.

In London, some newspapers accused Skelton of making a publicity stunt of his son's affliction as crowds of newsmen and photographers surrounded the boy wherever he went.

At the airport here, Skelton said he left London abruptly because of criticism of his tour by what he termed a "scandal sheet."

"It made me sick," Skelton said, "and I said, 'Let's get out of here.'"

The comedian added:

"The kids had a lot of fun but both of them want to get back to their little friends. We plan a normal life for Richard. He can play with his friends and go swimming and other things."

At the same time he said steps will be taken to recall licenses held by some blind persons in Pennsylvania.

"There are many persons who hold driver licenses for years and then become blind but who failed to notify the bureau," he said. "Under normal routine they still receive applications and new licenses each year."

The department said the check on such persons will be made through state records of persons receiving blind pensions.

American representatives, acting under State Department instructions, approved this move at a meeting last week of 15 key trading nations in Paris.

The action frees limited quantities and types of machine tools, ships, transportation equipment, chemicals and metal products for shipment to the China mainland.

The United States government will continue to ban all American trade with the Chinese Reds, however, under its existing economic-diplomatic boycott of the Peiping regime.

Responsible officials who dis-

gested Altrincham may not be all wrong. I said the "fact that some of the critic's expressions are in bad taste does not invalidate either his right to criticize or the force of some of his observations."

"Many people who are staunch loyalists and warm admirers of the present royal family are worried because they believe the palace does not willingly move with the times."

KASPER STARTS ANOTHER FIGHT

NASHVILLE, Tenn. — John Kasper, who made his reputation as a segregation advocate in Clinton, Tenn., last fall, opened his campaign against Nashville school desegregation plans with a rally on Sunday.

He started with a brief controversy with city Park Supt. F. W. Pickens, who denied him the use of a city park for his anti-integration rally.

Pickens hustled Kasper from the park after a brief discussion of requirements for a permit to hold meetings at city parks. A dozen police and a crowd of about 100 were on hand.

The New Jersey-born executive secretary of the Tennessee White Citizens Council then moved his rally to a suburban lot, apparently according to a prior plan.

There he and several other speakers hailing from points as distant as Dayton, Ohio and Greenville, S. C., addressed a crowd, which dwindled from 300 to 100 in the muggy August heat during the two hours they talked.

Sheriff's deputies said the two cars were driven by Beard and the elder Kroninger.

Mrs. Patricia Kroninger told them her father-in-law was unable to avoid the collision when the other car approached at a high rate of speed. One of the cars apparently swerved into the wrong lane, deputies said.

FOUR KILLED IN HEADON CRASH

GENESEO, N.Y. — A head-on automobile crash killed four persons and injured three, one critically, on Sunday on Route 63, five miles west of this Livingston County community.

Two of the dead and the three injured were members of an Allentown, Pa., family.

The dead were Mrs. Edith Kroninger, 43, of Allentown, her three-year-old grandson, David, Ivan Beard, 23, of Cuylerville, N.Y., and Gary Hagen, 22, of Piffard, N.Y.

The husband of the dead woman, Samuel Kroninger, 45, was reported on the danger list at Strong Memorial Hospital.

His son, Samuel, 20 and the son's wife, Patricia, 21, were in poor condition with fractures of the right thigh.

Sheriff's deputies said the two cars were driven by Beard and the elder Kroninger.

Construction Of 3-Lane Roads Ends

HARRISBURG — The State Highways Dept. has ended construction of three-lane highways which it says invite head-on collisions between motor vehicles.

Joseph J. Lawler, secretary of highways, said the department realizes the "folly" of constructing three-lane roads.

He predicted the more than 2,000 miles of three-lane roads in Pennsylvania eventually will be eliminated by the department under its present program of "constructing safety into highways."

"The folly of constructing three-lane highways was realized at once when the present administration took over," Lawler said, "and none has been started since then."

"There are more than 2,000 miles of three-lane roads in Pennsylvania and they will eventually be eliminated," Lawler promised.

SPECULATE ON NEW POSITION FOR NIKOLAI

By WARREN ROGERS JR.
WASHINGTON (AP)—Diplomatic officials speculated today that new jobs may be in the offing for Soviet Premier Nikolai Bulganin and Defense Minister Georgi Zhukov.

The speculation about another Kremlin shakeup was inspired by the circumstances surrounding party boss Nikita Khrushchev's rendezvous in Romania last Thursday and Friday with Yugoslav President Tito.

Bulganin missed those talks—believed to have dealt with prime satellite political topics—and also was omitted from the list of officials joining Khrushchev in a scheduled visit this week to East Germany.

Uncertain Business
Speculating on new Kremlin moves is an uncertain business at best, diplomatic officials conceded, but they hazarded guesses that:

1. Bulganin, noticeably shrinking in prominence since Khrushchev thwarted an attack on his leadership last June, might be kicked upstairs to the presidency. This powerless post now is held by the

aging Klementi Voroshilov.
2. Zhukov, President Eisenhower's World War II comrade in arms, might succeed Bulganin as premier, giving Khrushchev a chance to cash in on Zhukov's high personal popularity with the Russian people and making official a general belief that Zhukov now rates second only to Khrushchev in Russian power.

Might Be Mikoyan
But there has been speculation abroad that the premiership might go instead to Anastas Mikoyan, the deputy premier and economic expert named to accompany Khrushchev to East Germany.

The State Department yesterday declined comment on such speculation.

Bulganin is widely reported to have sided with deposed Soviet leaders Georgi Malenkov and V. M. Molotov during the fateful Central Committee struggle last June 22-29. Ever since, he has taken a conspicuous back seat.

Illness Denied
Zhukov, on the other hand, reportedly helped Khrushchev win in the struggle for power, and apparently has gained stature since.

Soviet spokesmen in East Berlin denied Bulganin was staying home from East Germany because of illness. They said Mikoyan was going along because economic matters would be discussed and he is an economic expert. But in denying that Bulganin was ill, the spokesmen neither confirmed nor denied that he was on the skids politically.

Moscow radio said Bulganin, along with Khrushchev, Zhukov and other Soviet leaders, attended a reception given yesterday by a visiting Syrian delegation. He also was present with them at a World Youth Festival party in the Kremlin last night.

SAY DILWORTH BEING PUSHED FOR GOVERNOR

PITTSBURGH (AP)—Democratic party leaders today continued laying the groundwork in a drive to increase the number of registered Democrats in Pennsylvania.

Their efforts, aimed at piling up more votes in the November elections, came amid reports that Mayor Richardson Dilworth of Philadelphia is being plugged for the Democratic gubernatorial nomination in 1958.

Some of the party's top men were in Pittsburgh yesterday and Sharon last night to show party workers how to get more Democratic registrations.

First Workshop
The meetings were the first in a series of "workshops" scheduled throughout the state. The team headed for Williamsport today.

Other sessions are slated for Wilkes-Barre on Aug. 13 and Harrisburg and Reading on Aug. 15.

The Republicans have set up a similar series of meetings for next month.

On hand for yesterday's meetings were Governor Leader, Mayor David L. Lawrence of Pittsburgh, State Senator Joseph M. Barr, the State Democratic chairman, and James Finnegan, head of the party's registration drive and secretary of the commonwealth.

Report Dilworth Boom
Even as the top-ranking Democrats were huddling with party workers, the Philadelphia Inquirer was on the streets with a report that four Democrat leaders want Dilworth for governor.

The newspaper listed Dilworth's supporters as Matthew H. McCloskey Jr., treasurer of the Democratic National Committee; U.S. Sen. Joseph S. Clark; and Lawrence and Finnegan. All except Lawrence are Philadelphians.

Commenting on the report,

Clark said he would like to see Dilworth run for governor but said neither he nor McCloskey, Lawrence and Finnegan have had any meeting of minds on the subject.

Mayor Lawrence dismissed the report by saying: "We have a local election to take care of first before we get into a state election."

No Shortage Expected
McCloskey and Finnegan were unavailable for comment.

Barr said "I know nothing about it." He added:

"I don't know if Dave (Lawrence) has talked to Dilworth. I haven't talked to him. I also know the governor hasn't talked to him. As to McCloskey and Sen. Clark being for Dilworth—that possibly may be."

At a news conference in Pittsburgh earlier, Leader declined to say whether he had any specific persons in mind as gubernatorial material.

"Generally, a party in power finds no shortage of candidates," he said. "The Democrats will put a good ticket in the field."

SOLONS SCREEN STUDIES SET BY 1957 ASSEMBLY

HARRISBURG (AP)—The Executive Committee of the Joint State Government Commission today began screening legislative studies ordered by the 1957 General Assembly.

Commission Chairman Baker Royer said it was the biggest job with which the commission has been faced since he became chairman nine years ago.

The 14-member Executive Committee was scheduled to begin setting up a priority listing for the more than 40 studies and investigations called for by the lawmakers during their six-month session.

Assembly Research Arm
The commission, composed of all members of the House and Senate, is the research arm of the General Assembly.

The proposed studies deal with matters ranging from possible changes in the state constitution to the problems arising from birds feeding on farm crops.

"I have no idea how long it will take the committee to decide on its course of action in these studies," Baker said. "Your guess is as good as mine as to how many of the studies the commission will be able to undertake."

Largest Number of Studies
"As far as I recall, this is the largest number of proposed studies ever to come before the commission," he explained.

The executive committee consists of the Senate president pro tempore, majority and minority leaders and whips of both houses, the speaker of the House, and chairmen of both caucuses in the House and Senate.

A study of the resolutions calling for the studies showed that several are duplications and as such will not require duplicate studies.

FORDS COST LESS PER MILE!

Fords cost less to buy!

No doubt about it! Model for model, right across the board, Ford cars are the lowest priced* of the low-price three. And don't be fooled by those "low prices" now being quoted for some "stripped down" models in the medium-price field. Remember, a '57 Ford equipped the way most people want a car today—with automatic transmission, heater and radio—costs hundreds of dollars less than these medium-priced cars, *similarly equipped*.* Any way you look at it, Fords cost less to buy.

*Based on comparison of manufacturers' suggested retail delivered prices

Fords cost less to run!

In the only nationally recognized test of gasoline economy, the 1957 Mobilgas Economy Run, a Ford Six delivered more miles per gallon than any other car entered! This, remember, was no "private test" conducted for the benefit of a single manufacturer. This was grueling competition between 12 different makes of cars, 24 cars in all... supervised every mile of the way by officials of the United States Auto Club. And when the rugged 1568-mile test was over, Ford led all other cars regardless of size, weight or price in the thing you want most—actual miles per gallon!

Fords cost less to trade!

Latest official auction sale figures on used cars show clearly that the new kind of Ford commands a higher price than either of its two low-priced competitors. The men who bid at these auctions are professional buyers—men whose very livelihood depends upon their expert knowledge of cars. They pay more for used Fords because they know that Fords hold up in value. Like thousands of Ford owners from coast to coast, they have discovered that Ford is worth more when you buy it... worth more when you sell it, too!
